Websites I helped build:

1. [Elaine Roselle](#) (2018-2022) | Personal website, complete design, and development, using Hugo (Go programming language) static site generator, JavaScript for backend CMS, and Netlify.
2. [Light Me Up USA](#) (2020) | Freelance, complete re-design and development
3. [The Optometrist Toorongu](#) (2020) | Employed work, complete redesign and development
4. [The Dry Eye Group](#) (2021) | Employed work, complete re-design, and development
5. [airTeachr website + app](#) (2022) | Employed work, complete design and development for website, frontend development using ReactJS and Material UI
6. [Radmedic Group](#) (2022) | Employed work, complete redesign and development

Personal Projects:

1. [Plugin Backup for WordPress](#) (February 2021) | Backup data from other WordPress plugins
2. [CRUD Project](#) (September 2020) | Using PHP and Bulma CSS
3. [Gatsby bootcamp](#) (August 2020) | Blog built with GatsbyJS, using GraphQL and markdown files
4. [Hugo New Post](#) (Nov 2018 - Apr 2020) | Automated adding new posts with Hugo Static Site Generator through a bash script.
5. [Audree Theme for Hugo](#) (Oct 2019 - Jan 2020) | Developed custom theme using Bulma.io CSS and Hugo using Go programming language
